I like to work with new stuff, and learn on-the-go, but always appreciate good teachings and advices that save a lot of time.

I'm trying hard to bring my skills to higher level, because I know that they are useful.

Technical Skills

Like: python, loxodromic-function, git, css, html, linux, smalltalk, economics

Experience

Summer of Code Developer – Google (mentored by ESUG) May 2013 - October 2013
smalltalk, git, monticello, graph-et, smark, pharo, markdown, numerical-methods, ode
develop ODE(Ordinary Differential Equations) solver for SciSmalltalk project in Pharo (Smalltalk dialect)

Education

M.S. in Mathematics – Ivan Franko National University of Lviv 2012 - 2013
Master's project: properties of loxodromic function.

B.S. in Mathematics – Ivan Franko National University of Lviv 2008 - 2012
Course works: convex functions. Bachelor's project: loxodromic functions.

MOOC – (Massive Open Online Courses) 2012 - 2013

Completed Courses:

- **Learn to Program: The Fundamentals** (Coursera - University of Toronto). Completion Score: 98,2%
- **An Introduction to Interactive Programming in Python** (Coursera - Rice University).

High School Diploma – Lviv Physics and Mathematics Lyceum 2005 - 2008

Achievements in Economics:

- **2nd** place in *First Lviv Open Economics Olympiad* (2006)
- **3rd** place in *Regional Lviv Economics Olympiad* (2007)
- **2nd** place in *Regional Lviv Economics Olympiad* (2008)
